1. Introduction

The future of India lives in its villages. India is not Calcutta or Bombay. India lives in her seven hundred thousand villages` - Mahatma Gandhi.

True to the words of the Father of our Nation, the development of our country has to be assessed by the state of the villages. 365 million people live there below poverty line, mostly illiterate and in low economic status struggling to lead their daily life. Keeping villages the main focus, the World Community Service Centre strives for a better world through its Village Service Project.

A memorandam of Understanding was reached on **01.04.2022** between World Community Service Centre (WCSC) and Renault Nissan Automotive India Private Limited (RNAIPL), Oragadam for implementation of Village Service Project in Appur Village near by Oragadam, Kanchipuram District.

12. Baseline, Midline & Endline Feedback

Baseline, Midline and Endline feedback – we take baseline feedback using a questionnaire, from the participants to understand their physical and mental condition. After 4 months, we take midline feedback with different questions related to the baseline questions, to measure the progress in their physical and mental condition. Finally at the end of the program, we take final feedback.

Baseline, midline and endline questionnaires (sample responses 10 out of 30 are given) as answered by the beneficiaries and the results are recorded as shown below.

The questions highlighted in dark (viz, 1,4, 5, 7-11, 13, 14, 17, 18) are on a scale of 1-4 with **1 being low and 4 being highest**. The remaining questions in plain white are on a scale of 1-3. They are converted into percentage (%) by dividing by the denominator (3 or 4, as applicable).

13. Participant's Feedback Analysis

We, in WCSC-VSP, use a questionnaire (as mentioned above) covering questions related to the improvements and / or experience by everyone after practicing and applying the SKY exercises, meditation and introspection techniques in their life. Based on the responses received, we consolidate and analysis the results. The inference drawn from the responses are as follows: -
